

*A CO-WORKER LETTER TO ALL MEMBERS OF THE  
»GET ACQUAINTED PROGRAM«*

Before leaving Denmark mr. Adamski asked major Petersen to organize Europe after the same principles as those used in organizing the »Scandinavian UFO-information« – SUFOI; and at the same time spread knowledge to his trip with lectures and questions and answers.

This co-worker letter was sent out as a result of this very idea and it is now just part of that booklet, which is mentioned in the letter; steps will now be taken to have the booklet translated into other languages.

*TO FRIENDS ALL OVER THE WORLD*

By this time, I think, all of you would like to know a little about how GA's trip to Europe came through and what's new in this part of the world.

As you all know, GA was invited by SUFOI and its members and that they made it possible for him to travel to Europe.

GA came to Denmark on the 29th of April and left on the 15th of May. At the pre-planning stage Germany, Finland, Switzerland, Italy and England were to be visited. While in Denmark, Finland and Germany were cancelled because of circumstances which will be generally known one day.

GA had a tremendous success in Denmark; he did not meet one negative person although he saw and talked to thousands. He was given five minutes on the Danish State-Controlled TV. They met him at the airport like they meet any official coming to the country, and he was also taken to an interview in the TV house.

He spoke to 700 people on the SUFOI Congress and he met people every day while here.

In Belgium he met with European Co-Workers; the result of this is not fully known by me at this time. Maybe he will handle that in a separate co-worker letter as I feel that he wants to speak to all of us soon.

GA has told me that he wants me to inform all co-workers about the Congress. This will be done as soon as possible, which might be in a couple of months. It will be with a booklet of at least 100 pages and a new idea will be born with it. *This is the idea:*

The booklet will be worked out as an advice for persons and groups interested in our work. It can be bought by ANYONE interested, and it should make it possible for us to spread the truth more easily. The advice: do not accept people mixing Mysticism, Religion, Politics and Money-Making Interests with the truth we know. So we will get only the right people into our work.

SUFOI is a proof that the ideas are right, and in a very short time steps will be taken to spread these ideas to all European countries. Of course the present co-workers of GA will be asked if they want to cooperate after the advice is given; and in case they do not want to help I shall choose other co-workers of my own to help me.

The booklet will be of great value to the whole world, so I recommend that co-workers in other parts of the world take up the idea. I can deliver the booklet in the English Language if I just know approximately how many copies each co-worker wants. Just now I am trying to find a way to get it translated into German and Spanish/Portuguese. If I can handle that, new times should come to Germany, and South America would have a good help to start all over again.

The booklet will cost between two and three U.S. Dollars and will contain:

*Introduction to the booklet*

*The SUFOI Congress*

*Question and Answers*

*Press results*

*Line of Action*

*The New Idea*

The past has shown us that it is necessary to have a line of action all over the world ... an *even* line of action. The idea will be taken up now.

By following the advice given, all twisting of the truth, as we see it done to-day, will be impossible. This new program, therefore, is necessary if we really want to do something to help. What has been done in the last fifteen years is too little.

The new idea will start when the booklet is ready and the materials from mr. Adamski and his associate will keep it alive.

Until the program starts I ask all true friends – wherever you live – to prepare for this new idea. We *must* remember GA's words: »If you are not with us, you are against us.« This is still very much true.

To my European friends I shall say: »Make up your minds! Time is nearly up. The responsibility is placed on my shoulders now, and I shall know how to handle the idea.« As GA has already said so

often: »The resistance will be stronger, the lies will be bigger, our enemies will fight for their personal interests in these last days.«

We (I) fight for the truth GA has been asked to bring to the World. DO NOT LISTEN TO NEGATIVE TALK!!! Know that GA and many at his side are doing a work which can help our world into a better state. We are all very small individual humans in the eyes of our surroundings, but if we unify we are a tremendous power. And unification will come one way or the other. Please note that we can all be in the game, and we can all leave. Actually at this stage it doesn't matter. There are hundreds ready to join, just at the point where one leaves.

The truth given by GA has now spread to the whole world on such a large scale that the new times to come cannot be delayed by a bunch of negative persons, wherever they may hide. Remember, that the so-called flying saucers are a Cosmic set-up and that the few cannot spoil the plans prepared long, long ago. They will go on forever in all parts of the vast universe TO THE BENEFIT of all COSMIC SISTERS AND BROTHERS.

### *DO YOU BELONG TO THE FAMILY?*

I shall keep you informed on how things come along, and give you a more exact date as to when the booklet will be ready.

Until then I shall say: Be patient and make yourself ready. If you live in Europe you can cooperate on the idea. If you live in other parts of the world you can take up the idea.

To the European co-workers and my other European friends, I shall say this because of the present circumstances:

I know very well what is going on in the different parts of Europe!!! If you will have faith in the plans, you are already part of them. If you are against them, you have actually already placed yourself at the roadside waiting for anyone to pick you up. The bus is on its way. We all have a ticket; so let's meet at the different stations on the track in time to get a seat. This bus won't make another trip, and it won't wait!

All the best,  
*Hans*

## GUIDANCE TO THE INTERESTED (General)

In connection with these new endeavours, Denmark, for the present, can be considered as organiser for the European area. Headquarters will be, until otherwise informed:

*SUFOI, Rønnealle 9., Sunds, Jylland, Denmark*

Headquarters will in the near future seek to make contact with those interested, in all the European countries. Gradually, as the plan takes shape, an attempt will be made to organise those interested in such a manner that in every single country one or more headquarters can be established, depending on the size of that country. All interested individuals will, in time, be referred to the nearest headquarters, which, according to the circumstances, will bring them in contact with each other with an eye to eventual collaboration and group-work.

Gradually, as the various headquarters show their capabilities, they will go over to direct and independent international co-operation under an international headquarters.

The study material which will form a basis for the proper understanding of the new idea is, all the Adamski materials, and the literature he recommends through a literature reference list. To these can be added – in English-speaking countries – national periodicals which reproduce Adamski materials, supplemented by nationally-produced matter or purely national matter – or, in non English-speaking countries, translations of »Adamski materials«, supplemented by matter of a national interest, but all after approval by Mr. Adamski or one authorised by him. It may be possible, perhaps, at some time or another, to organise a translation into German, French and Spanish, or Portuguese, and to publish the journal in these languages from an appointed place.

To be able to help in these new endeavours one must show one's interest by subscribing to materials recognised by Mr. Adamski, – as mentioned above. Where this is not possible by reason of the language, or because there is no materials to be found in the area, one must assist in insuring that the contents of known materials are made known in some other way.

To become a collaborator one must show by personal effort that one understands, accepts and works for the idea along the lines indicated. It must be understood that one cannot both have diverging views and still join in this work. It is, of course, only a moral responsibility one has, but if it becomes known that a person takes

a diverging path, or undermines the truth by spreading false information or by mixing personal interests with that which we know of our visitors, it will be tantamount to exclusion from collaboration in this work.

That is to say, that one should not in any form support theories which are *in any way contrary* to the information given by Mr. Adamski, and his approved associates.

*One must not work for personal economic gain.*

*One must not work to forward any political views.*

*One must not work in support of any special ecclesiastical, religious or sectarian movement.*

If you cannot wholly understand why it is necessary to handle so firmly what is, after all, a voluntary co-operative work, I will try here to illustrate the point:

It can perfectly well be, that a religion or a sectarian viewpoint is truthful. Nevertheless, it will be stagnation to attempt to fit the UFO-case into such viewpoints, because *any* religion and *any* sectarian conception has its *origin* in visits from other worlds! Is, in fact, contained within the UFO-case!!!

One can perfectly well study religions, sectarian movements, political movements, financial politics, every imaginable UFO-book, Science Fiction, etc., etc., – if one knows the truth and does not forget it.

On the other hand, why should one absorb oneself in something which is subordinate to the UFO-case, as long as one does not know the UFO-case inside out.

This step of The Cosmic Plan – which was worked out long ago and now manifests itself through the UFO-case – can only be understood if one is completely honest – also with oneself.

If one has personal views which conflict with something given out by or supported by Mr. Adamski, one cannot obtain a knowledge of, still less an understanding of, the truth – before one is willing to allow oneself to be guided!

The new program is not dictatorial, – even though some such thing might perhaps be a good excuse for not allowing oneself to be guided! One cannot and must not compromise with the truth. – Therefore we follow this strict course.

Study the above now, in its entirety, – supplement it with Mr. Adamski's materials and other recommended matters and you will have a sound basis from which to attain the personal understanding which is necessary, in order to help others to understand the UFO-case and to understand the purpose of existence.

## RELATIONS WITH PRESS, RADIO AND TELEVISION

It is a delusion to believe, that one can dictate to the Press, what they shall write and when. The Press has the power and this fact cannot be changed.

Therefore one needs to co-operate with the Press in such a manner, that the result will be the desired one. How does one go about this?

Let me first show, how one can best ruin everything, – that is, how one does *not* go about it. The following examples I have personally been »witness« to:

Invite the Press to a meeting, where you begin by –:

- *Offering up a hymn in praise of the space people!*
- *Holding each other's hands amidst mumbling or humming!*
- *Letting a medium create a »contact with the space people«!*
- *Switching off or lowering the lights!*
- *Relating occurrences in connection with the abovementioned!*

Follow this line and you will *never* come into the newspapers, radio or television as something one takes seriously. You will become known as a fool.

*Be normal!* Follow the guidance given throughout this booklet, and be normal in dress, conduct and utterances. Never relate more than your listener, for example, a newspaperman, can grasp. Stop at his limitations, and he will come again. And his readers will urge him to do this – because he came with an account, he himself could understand, and this he conveyed to his readers.

By following this rule the whole time – and also remembering it when one meets other and new newspapermen – one can build up a positive atmosphere in the Press, and through this come out to the masses.

By means of the Press one reaches out to radio and television, where the same rules apply with few alterations. *Begin elementarily* – so that the weakest link can follow along. It is also an advantage that those, who have not reached »the spacestep« on the ladder of development, will switch off the receiver, *before* the more advanced material is brought forward. In this manner you avoid harming such people – they will get the chance another time, if *we* do not hinder them in this by giving them a SHOCK, which in the worst cases can take some little time to overcome.

The same must be remembered when one has written contact with the Press –; there are a number of co-workers, who have a profitable written contact with the Press, and that is a worthwhile beginning.

## WHO IS NORMAL?

Time after time I use words such as normal, balance, golden mean, and others. These words I connect with persons, who under all conditions and in all circumstances know the golden mean, can find the balance in large as in small, and are therefore that which we call – quite normal.

Most people dismiss thoughts of this nature. *That is wrong!* One must remember that both lacking and exaggeration are harmful, no matter what we speak of, – only the absolute balance along the golden thread of everyday gives a perfect day – a perfect life – a perfect development.

REMEMBER THE OLD SAYING:  
TO MUCH AND TO LITTLE RUINS EVERYTHING

### DANGEROUS UFO-BOOKS AND MAGAZINES

How can books or magazines be dangerous, and when? It is our experience that a book or a magazine is dangerous, when it wallows in a greater or lesser confusion of:

*ANTI-potitics*

*ANTI-atom*

*ANTI-military*

*PRO-religion*

*PRO-sectarianism*

*PRO-nature healing*

*PRO-spiritualism*

*PRO-vegetarianism*

ANTI/PRO many many more things – without a natural explanation as to why. Remember we live on planet Earth!

That kind of magazine and book can be found all over the globe! – We could name them all, but we leave it to the individual to judge, with the experience gained in this booklet as guide and bal-last. Those books are dangerous – they have always both great lack and great exaggeration because of the extreme attitude to the problems.

## GOOD BOOKS

For the elucidation and understanding of the UFO-case the following types of books and UFO-periodicals are recommended:

1. All new scientific books – almost irrespective which subject they deal with, as long as they »fight« for humanity and progress.
2. Books on Philosophy – old as well as new.
3. Books on the pre-history of our globe – old and new.
4. A whole series of UFO-books.

You will be able to judge when you have finished reading this book.

If you will help, you can find useable books in your own country – in your own language and tell about it. This can always be managed in the case of categories 1 and 2, the scientific and philosophical subjects. Perhaps more seldom are books answering to category 3, but these too, surely, can be found. Category 4 is more difficult – but if there are no recommendable UFO-books written or translated in your own country, perhaps it would be an idea to assist in getting it done now?

UFO-magazines whose aims are those specified in this booklet, will soon be found in all languages and made known by us.

NOTE!!! That is to say, – that if a UFO-magazine is *not* supported by us, it has, in our opinion, a diverging point of view which is believed to be harmful to the cause for which we are working, and hampering to the efforts which are being made to obtain good results in the spreading of the *TRUTH*.

## GROUP MEETINGS

If there is in an area a basis for the organising of a group, one can, for example, proceed in the manner suggested here:

One calls in all those known to be interested to a meeting for the purpose of establishing a group. Arrangements as to future meetings are then discussed. Members then come to a decision as to:

Leadership.

Where the meetings shall be held.

Whether a small fee shall be charged.

What material one wishes to buy.

The program.

One can almost always get a room free in a cafe or the like, by ordering coffee or refreshments.

It is normally advantageous to charge an entry fee, as by this means one can obtain an economic background for the purchase of materials. These can, for example, consist of:

Slide projector and screen.

Detector.

Compass.

Binoculars.

Books.

At an ordinary evening meeting one can discuss many different subjects, but in the beginning it will be expedient to go about things gently. It can, for example, follow these lines:

1. Meeting begins 8.00 p.m.
2. Group leader gives a briefing on things of general interest.
3. 8.15 Person in charge of report material gives an account of any observations gathered since the last meeting, – if possible, the best ones from the group's area, from the country as a whole, and from the rest of the world.
4. 8.45 Showing of chosen news-cuttings.
5. 9.30 – after a break – one of the members reads out articles of interest from the magazine subscribed to by the group, – perhaps some passages from a UFO-book.
6. 10.00 A discussion is started on the subjects previously dealt with – that is to say, the reports, cuttings and reading-up, as well as anything else which may be brought up.
7. Meeting ends with the fixing of a date for the next meeting.

After about 3 months one will discover that the interests now are widely differing, and it is then time to re-organise. One classifies the members now according to interest, and there will be, – when the extremists are sorted out, – three categories with which to work. These are:

The Ordinarily Interested.

The Technically Interested.

The Cosmis-Philosophic Interested.

### *THE ORDINARILY INTERESTED*

At a meeting for this category one must not go too profoundly into any field. To this group, – which answers to the originally established group so far as understanding of the UFO-case is concerned, – all new members are referred, until they are ready to be transferred to one of the other groups.

The most important material here is the UFO-magazine one subscribes to, as well as more easily digestible books, – a book such as »Flying Saucers Have Landed« can be used, – but that is the furthest one ought to reach out.

### THE TECHNICALLY INTERESTED

At a meeting for this group one lays on a program which satisfies the members' particular interests. It can, for example, be:

Report material.

Technical equipment.

Manufacture of aids to observations and the like.

Books of a technical character.

Discussion of articles in the UFO-magazine to which all ought to subscribe.

Plan and carry out observation tours.

### THE COSMIC/PHILOSOPHIC INTERESTED

This group is normally the biggest – and moreover the most stable – but also the most difficult to lead – which is why it *must* be watched over, so that it progresses along the right lines.

One concentrates mainly at the beginning, which can range from 6 month to 2 or more years, on learning to understand Mr. Adamski's books in the following order:

100 Questions and Answers.

Telepathy.

Flying Saucers Have Landed.

Telepathy. (Again).

Inside The Space Ships.

Telepathy. (Again).

Flying Saucers Farewell.

Cosmic Philosophy.

Saturn Trip 1.

Cosmic Philosophy. (Again).

Saturn Trip 2.

The reason that Telepathy and Cosmic Philosophy figures several times, is that one may read them time and time again – in fact, after every single discussion – until one can come no further. But after a shorter or longer pause one can, without further ado, start off again through the whole list – there is eternal WISDOM in these materials.

One must the whole time keep up with the new articles appearing in recommended publications, and other useful materials.

At the same time one must always be prepared to receive additional new members transferred from the other two categories.

It speaks for itself, that the leader of this group has a great responsibility, and that it *must* be a person, who is absolutely clear as to what he is working with, so that he can lead the others along the right paths – in accordance with that, which is given in this booklet as truth, as well as with the contents of all the recommended material.

Once one has reached so far that a program as suggested above is realised, then the rest will take care of itself.

### INTERESTED INDIVIDUALS

If one is alone, either because there is no groupwork in the area or because one does not wish to be connected with a group, one can perfectly well both get personal benefit, and help with spreading knowledge of the UFO-case.

It is incontrovertibly necessary, that one subscribes to a UFO-magazine of Georg Adamski's or one of those recommended by him. Further, that one obtains those materials, which one has an interest in, as, in this case, one must oneself find out whether one belongs to:

The Ordinarily Interested.

The Technically Interested.

The Cosmic/Philosophic Interested.

A part of the guidance for these three categories, which is to be found elsewhere in this booklet, can perfectly well be used by interested individuals.

Should one wish to make contact with other interested individuals, there will always be a possibility of finding one or more, either at home or abroad, who would like to correspond. The recommended UFO-magazines will gladly circulate such wishes.

It is worth nothing moreover, that one can *always* send in questions the answers to which one cannot oneself find by reading the recommended literature. The answers will then be given in the magazine so that everyone can benefit from it. Privat answers can also be given if necessary.

## VOLUNTARY DUTIES

As can be deduced from all the many phases in this little booklet, a program can – if one wishes to be active – in all simplicity be summarized thus:

- a) Spread the knowledge of the truth as derived from all the George Adamski material, from this book, and from other accepted sources.
- b) Fight mystification by means of objective enlightenment.
- c) Where a possibility of contact with the Press exists, try to get a good relationship established.
- d) Try to get as many as possible to subscribe to co-worker magazines.
- e) Seek personal contact with other interested persons in one's immediate vicinity, or where this is not possible, seek to contact like-minded by correspondence.
- f) If it is preferred, work alone along the lines recommended in this booklet.
- g) Seek information about questions which are not believed to be covered by previously-given material.
- h) Hold to the golden mean – the golden middle-way –, never become extremist, – either in one direction or in the other.
- j) Try to be brave, happy and modern.

## CONCLUSION

Behind you now lies more than 260 pages of concentrated advice, help and truth! WE have endeavoured to cover as many fields as is possible, considering the fact that the contents are brought out and made ready by relatively few persons in a voluntary and unpaid co-operative work – and in a relatively short time – mostly by people whose native language is not English.

Consider this book as a text-book, which you can always open up to get help. When you have finally understood the contents of this booklet, and read and understood Mr. Adamski's books, then you yourself will be able to help others to understand the truth!

If, at some time or another, you should »seize up«, then you must relax. You must not force anything, – as you yourself will soon discover! This case – as it now stands – is so simple, that in the beginning it is hard to understand, but once you catch the point, it goes by itself!

Be honest with yourself and others – back out, if you cannot learn to understand the information given. This business must be

understood, not just accepted, and it demands courage to recognise that one does not understand something, which others claim is simple.

To you who believes he has found understanding, will I finally say: Be loyal and honest to this case – for your own sake. That with which we are working has an origin which only the fewest suspect – and the case as a whole cannot be harmed! *ON THE OTHER HAND, YOU CAN BE!!!*

Think of this *every time* you discuss the UFO-case. Everything in the COSMOS is cause and effect. It means, among other things, that honestly breeds positive, dishonesty, negative effects ...

And so you are alone – perhaps treading your own lonely road – in a world where contrasts meet more sharply than ever before. The masses drift hither and thither without plan, just following the doctrinal streams which the world's leaders spread through the newspapers, radio and television. Depression is great, as never before – murder, violence, crime, accident, swindle, sickness and stress, all to an extent so great, that one cannot think that it could be worse.

But the plan, – which follows with the presence of the flying saucers in our atmosphere and the space people's work among us – will soon begin to be seen. When that happens a great many things will be changed; and then the pace will quicken. Progress will roll in over us, and the law of cause and effect will adjust the balance and equilibrium in our world.

Ahead lies eternity, and many new problems await to be solved on the way forward, upward, – homeward. Thank you.

For Progress and Truth.

*H. C. Petersen*
